DETAILED ACTION

1. Applicant's response to the last Office Action, filed September 15th 2006, has been entered and made of record.
2. Applicant has amended Claims 1 and 12. Claim 17 has been canceled. Claims 1-16 are currently pending.

Allowable Subject Matter

3. The following is an examiner's statement of reasons for allowance: The Applicant asserts that the two most pertinent pieces of prior art, Wolff et al. (U.S. Patent Number 6,201,903) and McComb et al. (Using WordPerfect ® 6.1 for Windows) separately or in combination do not teach the limitation of "...composing the document using the document type data to select the form of the document from a selection of at least two different form types, [examples found in the specification are mail, email or fax] wherein the input form comprises a different format than the document and using the input data to populate the document.". The Examiner agrees with the Applicant's assertion and further searching on this specified limitation in combination with the other limitations of the independent claims has yielded no viable pieces of prior art, which could be used to teach this added limitation. On that basis the Examiner finds this application to be in condition for allowance.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
